ABOUT THE IBL

The IBL started the 2005 season with seventeen teams, all of which finished the 2005 season. All seventeen markets from the 2005 season are on the IBL schedule for the 2006 season (an Akron ownership group is being replaced); in addition the IBL has expanded by eight teams.

There are **two unique features** that distinguish the IBL from other basketball leagues

- 1) **An entertaining game.** By allowing only one timeout per quarter and reducing the time between plays with an immediate inbounds, IBL games were fast and entertaining. The 2005 IBL team scoring average was 127 points per game, and this game occurred in less than 2 hours.
- 2) **Extremely low travel costs.** The IBL promises a maximum of one trip requiring air travel.
